Non-Published Classified Ads

Date Updated	Title	Author	Options
08-07-2012 15:26:02	FOR SALE: [redacted]		View Edit Delete

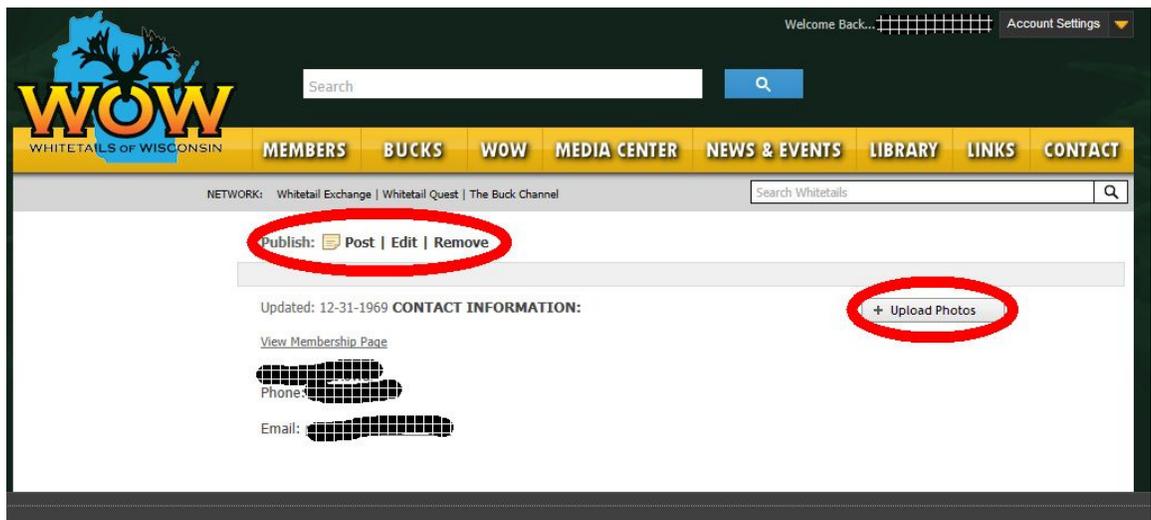

6. Type all your information in the form window that opens up. When you're done, click **Save**. When it tells you that your profile was updated successfully, click the **X** in the corner to close that window.

The image shows a software window titled "FORM CONTROL" with a close button (X) in the top right corner. Inside the window, there is a "Save" button in the top right. Below it, there is a "Post Date" field containing the text "12-03-2013". Underneath that is a "Classified Ad Heading" field, which is currently empty. The main area of the window is a rich text editor, featuring a toolbar with various icons for text formatting (bold, italic, underline, font color, background color), alignment, indentation, bulleted and numbered lists, link and unlink, insert image, and other standard editing functions. Below the toolbar is a large, empty text area for entering content. At the bottom left of the window, it says "Path: p", and at the bottom right, it says "Words: 0".

- Now your ad will show up at the bottom in the **Non-Published Classified Ads** section. Click **View** next to the ad you just created to open it.

- Review your information. If you are happy with it, click **Post**. If you need to make changes, click **Edit**. If you want to delete it and start over, click **Remove**. You can also upload photos at this point by clicking the button on the right that says **Upload Photos**.

9. Once you click **Post**, your ad is done and will show on the main classified ad page as well as in your profile.

10. When you have sold your item and want to remove it, just go back into the classified ad section in your profile and click **Delete**. If your classified ad is published on the WOW website by the deadline for each issue of the WOW quarterly magazine, it will automatically be included in the magazine's classifieds. If you don't want your ad to be published in the magazine, either remove it before the deadline, or contact Myndi in the WOW office.

NOTE: if you logged in with a password of "wi1234" PLEASE TAKE THE TIME RIGHT NOW TO CHANGE IT! Go back up to Account Settings, move your mouse over those words and then click on Change Password.
